Think *Innovation*

ThinkTank™! - The Revolutionary, enterprise-wide training solution

In a global marketplace, technological innovations decide who gets and keeps the competitive advantage. ThinkTank™, from Specialized Solutions, Inc, gives companies the competitive advantage needed to stay ahead of the competition. ThinkTank™ is a complete and comprehensive training and learning management system delivering:

- over 1000 on-demand course titles
- 43-95% savings over individual courses
- all courses on one central server
- directly connected to your computer network
- including the Accutrac™ admin/student tracking software
- State-of-the-art PowerLearning System™ courses
- Unlimited perpetual license on all course titles

ThinkTank™ gives your company the training tools it needs to affordably train an entire workforce. Affordable, scalable and effective, ThinkTank™ answers all of your training needs!

Specialized Solutions, Inc.

Think Efficient

ThinkTank™ includes our unparalleled learning management system called Accutrac™. Accutrac™ makes the merging of content, training and students simple and fast.

Accutrac™ includes over 50 preset reporting features allowing administrators to totally manage the entire learning process. Unequaled in the training industry, Accutrac™ gathers and presents the information needed to manage from one to virtually unlimited students, with ease, all at one time.

Accutrac™ administration reports include :

- Student course assignment
- Report of courses complete
- Length of time to complete courses
- Testing scores
- Student study time per course
- Skill assessment testing
- Number of times a test is taken
- Comparison of pre and post course testing
- Course progress reports
- Number of students in each course
- Progress of class within a course
- Average time to complete a course
- Average course test scores
- Reporting on the individual, department and company-wide level
- Assign a course program with pre-requisites
- Generate automatic regular reports and graphs
- Ease-of-use, no programming knowledge needed
- Many more

Think Ease

ThinkTank™ is designed to quickly plug into a standard network connection and be up and running within minutes. Built for ease-of-use, ThinkTank™ works on most networks with little or no modifications. ThinkTank™ utilizes a centralized, scalable and portable hard-drive system allowing for extremely fast and simple installation and maintenance.

As new courses are added, you will receive update CDs. Each CD will quickly and easily keep your ThinkTank current with the latest technology and standards.

Built with an industry-standard open-architecture database program, ThinkTank™ provides secured access, tracking and modification of student information including course curriculum, progress status and exam scores. With no new or extra software needed, ThinkTank takes the "headache" out of administering the system.

ConnectStor II Specifications

| | |
|---|--|
| Number of Drives Possible | Accepts up to 2 Ultra ATA/100, Ultra ATA/66, or Ultra ATA/33 drives by user; Formats new drives automatically on reboot |
| RAID Levels | RAID 0 (striping) RAID 1 (mirroring) |
| IP Address Support | Supports automatic assignment of internet addresses by network server (BOOTP or DHCP); IPAssign Software manually assigns IP Addresses over network if automatic assignment not supported by network |
| SMB Management for Windows Operation Systems | Create/Edit/Delete individual and group access to data folders; Create/Edit/Delete shared directories; Passes through existing NT Domain users and access permissions |
